AWS Community GameDay Europe

Welcome! ¡Bienvenido/a! Willkommen! Benvenuto/a! Tervetuloa! Bienvenue! Καλώς ήρθατε! Dobrodošli! Bun venit! Witamy! Dobrodošli! Ласкаво просимо! Üdvözöljük! Dobrodošli! Добредојдовте! Bun venit! Velkommen!

Disclaimer

AWS GameDay is a light-hearted adventure into the world of cloud technology and a parody of startup culture. The content is intended to be humorous and playful in nature.

Names, characters, businesses, places, events, and incidents are either the products of the developers' imaginations or used in a fictitious manner. Any resemblance to actual persons, living or dead, or actual events is purely coincidental and unintentional.

If you have played an AWS GameDay before, by staying in the room, you are obligated to laugh overenthusiastically at the terrible jokes that you may have heard before.

What is an AWS GameDay

- AWS GameDay is a collaborative learning exercise that tests skills in implementing AWS solutions to solve real-world problems in a gamified, risk-free environment.
- AWS GameDays differ from Workshops as each of the modules (Quests) are more open-ended, leaving each team to figure out the best way forward. Don’t be afraid to try something!
- This GameDay is designed for each team to work together on each of the Quests.
- Bonus Points are awarded to teams that can finish the Quest quickly.
